WORLD TECH GRID

ENTERPRISE POWER & INTELLIGENCE SYSTEMS

worldtechgrid.com | Kahului, Hawaii, USA | (808) 250-6606 | **sim@worldtechgrid.com**

Hands-on IT and project leadership, with power in the plan.

World Tech Grid has provided highly technical program management and business consulting services to corporate and government organizations throughout North America for over 20 years. Our B2B services support high-availability infrastructure and IT/OT convergence projects.

HOW WE HELP

Programs stalled or over budget
Capital program and portfolio management: PMO standards, governance, advanced reporting and forecasting for data-driven business decisions.

IT and field teams not aligned
One accountable lead from plan to hand-over, and a translator between field crews, engineers, IT teams and executives.

No clear portfolio visibility
Enterprise Project & Portfolio Management (EPM) environments that track roadmaps, budgets and KPIs across the portfolio.

IT/OT integration
Aligning industrial controls and automation with enterprise networks, cloud and security.

AI adoption without a plan
CPMAI-trained AI project planning and implementation management, focused on real business value.

Renewable program oversight
Solar PV portfolio tracking, scheduling and capex forecasting, with oversight and coordination of your licensed contractors.
